

Cristian Castro

software developer | web developer

BRIEF SUMMARY

I am a web developer with a strong focus on backend and experience in developing dynamic websites.

As a web developer, I specialise in creating efficient and scalable web applications.

With a solid background in modern technologies and a passion for continuous development, I strive to deliver projects that exceed client expectations.

PROFESSIONAL EXPERIENCE

Software Developer

Freelancer

September 2024 - Present

- I developed a digital platform that allows restaurants to update their menu in real time, making it easy for customers to access information by scanning a QR code. 📱
- I implemented a secure and optimised REST API with Django REST Framework, integrating front-end and back-end for a smooth, modern experience.
- 🏠 Find out more about the [project](#).
